# **1 Statement of Originality**

This report is submitted as part requirement for the degree of Computer Science at the University of Sussex. It is the product of my own labour except where indicated in the text. The report may be freely copied and distributed provided the source is acknowledged.

## 2 Summary

## Contents

1	Statement of Originality	1
2	Summary	2
3	Introduction	4
4	Professional Considerations	4
5	REPORT BODY	4
6	Conclusion	4
7	References	4
8	Appendices	4

### **3 Introduction**

to build a system for creating distributed computing applications more easily by implementing a consistent means of organising computing nodes and enabling communication between them without each node's applications needing knowledge of the other nodes in the system.

#### **3.1 Professional Considerations**

### **4 REPORT BODY**

### **5 Conclusion**

### **6 References**

### **7 Appendices**
